Retrofitting Existing Buildings to Improve Sustainability ... Since buildings consume a significant amount of energy (40 percent of the nation's total U.S. energy consumption), particularly for heating and cooling (32 percent), and because existing buildings comprise the largest segment of the built environment, it is important to initiate energy conservation retrofits to reduce energy consumption and the cost of heating, cooling, and lighting buildings. But conserving energy is not the only reason for retrofitting existing buildings. 9780881731835 - Retrofitting of buildings for energy ... Retrofitting of buildings for energy conservation by Milton Meckler. Distributed by PTR Prentice Hall. Used - Good. Shows some signs of wear, and may have some markings on the inside.
