Computer Assisted Organic Synthesis Planning | Green ... As we work towards a fully automated organic synthesis system, we aspire to refine the planning process with the feedback from experimental evaluation and optimization conducted by our collaborators, and further develop computational tools to guide scale-up and process optimization. Synthesis Energy Systems, Inc SES's transformative gasification technology produces clean synthesis gas, or syngas, that enables the manufacture of hundreds of high demand, high-value energy and chemical products from the world's most abundant feedstocks.
